13th April 2021 – 4.00– 5.30 pm KST (GMT +9)

Abstract

The **Italia-Asean Association** was founded with the aim of strengthening dialogue, knowledge and exchanges between our country and those in ASEAN.

The **Milan Urban Food Policy Pact** is a **global commitment of more than 200 mayors** from around the world that considers food as an entry point for the sustainable development of growing cities. It represents the **main framework for cities** and international stakeholders active in the definition of **innovative urban food policies** for the management and governance of local food systems.

The goal of this joint webinar is **to promote the city participation in the Asia Pacific region**, which now counts 15 signatory cities, representing about 130 million people. Cities in the region are increasing their interest in urban food policy development within a context of significant urban growth. In this scenario, the Milan Pact represents a platform for spurring innovation and cooperation among cities.
